Wat Rajathiwas Rajaworaviharn is not required to have a prototype system is already quite a good deal because we can model our own. We started up a modern bathroom for the disabled is available with either a ramp just renovated in a million baht budget. Our temple still lack of multimedia or billboard to give to international tourists which, now are not enough for them. However, Thai tourists know well about this temple and satisfy this temple which they know the way of doing in the temple. Thai Buddhist temple should pay attention more about management of temple environment to promote culture tourism for international tourist such as flowers, candles, incense, holy water, toilet especially amulets that is very famous for Thai and Chinese people.

The second interview: PRA Natthaphon Banapalo (Thai Buddhist monk)
Normally, we have not to forget the way of Thai ancient which, involved with temple. We should promote to the tourist want to see and experience the way of Thai Buddhist temple related with the Thai people by the way, we must do the tourism guide booklet for travelling around the temple in order to travel as culture tourism in temple in the right way that also explain the history of Buddhist and the core concept of Buddhism religion. Then, the tourist who come to the Thai Buddhist temple begin to know how to experience and travel correctly in Thai temple that they have to get knowledge and interesting from culture tourism along the travel. On the other hand, we should focus on to manage the external context of temple for example the bus stop, bike lane for the tourist, digital sign post, online of Thai temple information.

However, the direction and information signpost will be installed in every important temple areas. Our temple organizes the management and environmental elements whereas, the Buddhist temple where, the international tourists can do the merit a trip to the temples of religious tourism. However, we should do the knowledge management about Thai Buddhist temple and provide the knowledge information to the tourists who not only come to the Thai temple in order to take picture but also they want to visit Thai temple for respect and experience really Buddhist religion.
