# **The Programme The 2015 ICBTS**

#### At The University of Nevada, Las Vegas, USA,

|                     | Tract A1 : Session Chairs |                                                                |  |  |
|---------------------|---------------------------|----------------------------------------------------------------|--|--|
| Prof. Dr. Kai Heuer |                           |                                                                |  |  |
| Paper               | Time                      | Innovation Tourism & Business                                  |  |  |
| 001                 | 09.40                     | The Interplay between the Success of a Regional Marketing      |  |  |
|                     |                           | Project, Employee Commitment and Regional Identity             |  |  |
|                     |                           | Kim-Kathrin Kunze                                              |  |  |
| 002                 | 10.00                     | Supply-side Perspectives on the Market for Tourists with       |  |  |
|                     |                           | Disabilities in Korea                                          |  |  |
|                     |                           | Soyoung An                                                     |  |  |
| 003                 | 10.20                     | Academic Research and Industry Development: the Egyptian       |  |  |
|                     |                           | Model of Research                                              |  |  |
|                     |                           | Challenges in Tourism Sector                                   |  |  |
|                     |                           | Ghada Mohamed Wafik                                            |  |  |
| 004                 | 10.40                     | The Impacts of Electronic Word of Mouth in Shopping Websites   |  |  |
|                     |                           | on Consumers' Purchase Intentions                              |  |  |
|                     |                           | Ismail ERKAN                                                   |  |  |
| 005                 | 11.00                     | Working Conditions of Conmuter Migrant Woman in the            |  |  |
|                     |                           | Imperial Valley, California                                    |  |  |
|                     |                           | Dr. Agustin Sandez Perez                                       |  |  |
| 006                 | 11.20                     | Failure in the Transformation of Political Islam: The Cases of |  |  |
|                     |                           | Turkey and Egypt                                               |  |  |
|                     |                           | Yunus AKÇALI,                                                  |  |  |
| 007                 | 11.40                     | The effect of first language and procrastination on college    |  |  |
|                     |                           | students\' attitudes toward multi-drafting method of learning  |  |  |
|                     |                           | Miriam Sarid                                                   |  |  |
|                     | 12.00                     | Lunch Break                                                    |  |  |

| Tract A2 : Session Chairs : Dr. Ahmed Al Sulaiti |        |                                                                            |
|--------------------------------------------------|--------|----------------------------------------------------------------------------|
| Paper                                            | Time   | Sciences & Technology                                                      |
| 018                                              | 13.40  | The Effective Security Measures against Internet Fraud                     |
|                                                  |        | Chang-Moo Lee                                                              |
| 012                                              | 14.00  | A new mathematical approach for solving fuzzy linear fractional            |
